MTI Strengthens French Team with New Services Director

Networking and Telecommunications Expert to Drive French Operations

Paris, France, 16th February 2009 — MTI, the leading international provider of consulting services and comprehensive information infrastructure solutions for mid- to large-size organisations, today announced the appointment of Jean Pierre Peron to the position of MTI France Services Director. Alongside Thomas Rettig in Germany and Brendan McCormack in the UK, Jean Pierre forms the MTI Services management team, led by Tony Conway, Vice President of Customer Services. Each of the directors is responsible for the provision and quality of services to all of MTI's clients in his region.

Before his move to MTI, Jean Pierre was service and operation director for Voice over IP (VoIP) and Triple Play solutions at Thomson Systems, a worldwide leader in video solutions. Prior to this position he held several management roles in R&D, acceptance, integration and delivery across EMEA, North America and Asia at networking giant Nortel.

"I decided to join MTI because of its reputation as a provider of world-class services that really make a difference to customers," said Jean Pierre Peron, MTI France Services Director. "MTI is going through a rebirth stage, a very exciting period in its life; I am looking forward to taking the company's offerings to the French market and consolidating the work my colleagues have already done in this territory."

"2009 will be a very important year for MTI as we will be building on our accomplishments to date by continuing to offer the solutions and services that our customers require to become the leaders in their markets. Both MTI Solutions and MTI Services will be pivotal in achieving these objectives," said Tony Conway, MTI Vice President of Customer Services. "Jean Pierre is a highly experienced services professional and I will be supporting him in his expansion of the MTI France services business to maximise our presence in this key region."

Jean Pierre holds an engineering degree in network and systems and is based at MTI's Paris offices.
